The Quality and the Destination of the Colombian Manufacturing Exports

Borrador número 1033 Keep in mind
The series Working Papers on Economics is published by the Office for Economic Studies at the *Banco de la República* (Central Bank of *Colombia*). It contributes to the dissemination and promotion of the work by researchers from the institution. This series is indexed at Research Papers in Economics (RePEc).

On multiple occasions, these works have been the result of collaborative work with individuals from other national or international institutions. The works published are provisional, and their authors are fully responsible for the opinions expressed in them, as well as for possible mistakes. The opinions expressed herein are those of the authors and do not necessarily reflect the views of Banco de la República or its Board of Directors.

AUTHOR OR EDITOR Juan Esteban Carranza González-Ramírez, Alejandra Ximena Alex Pérez AUTHORS AND/OR EDITORS González-Ramírez, Alejandra Ximena Alex Pérez
In this paper we describe the relationship between the quality of goods and inputs of Colombian manufacturing firms and the income level of their export markets. We show that there is a positive correlation between measures of product and input quality and measures of per capita income of export markets. These findings are consistent with the recent literature on the demand and supply of quality, and with evidence for other countries.
